

### *Mission Statement of Indus University*

Indus University enriches students and society by creating and disseminating fresh perspectives in knowledge, research, leadership and application. Our community of scholars and alumni is devoted to build sustainable society nationally and internationally.

### *Mission Statement of the Department of Electrical Engineering*

Our mission is to equip the students with the advanced knowledge and processes so they can analyse and offer customized solutions to the industry. The prime focus is laid on training & development thereby preparing the students to meet emerging challenges in academia and industry both.

### *Mission Statement of Program: BS Telecommunication 4 years*

To produce high calibre graduates who can succeed by creating their own niche in the field of telecommunication across the globe and to equip them with the theoretical framework and experiential learning so they can make valuable contributions in their field of study.
